**ERRATA**

**Adopted: May 10, 2002**

**Released: May 10, 2002**

By the Chief, Industry Analysis and Technology Division:

1. The Commission released an *Order on Reconsideration in CC Docket No. 99-216* on April 10, 2002. The *Order* modified the rules to reflect that the manufacturers need not be identified on terminal equipment labels. The new rules appended to the *Order*, however, did not reflect this modification. Pursuant to Sections 4(i) and 4(j) of the Communications Act of 1934, as amended, (47 U.S.C. §§ 154 (i) and 154 (j)), we hereby correct Appendix B, Rule Amendments. The changes below add this modification to the rules and bring them into compliance with the Commission's *Order on Reconsideration*. The Federal Register publication of the *Order on Reconsideration* will include these corrections.

2. Add amendments to sections 68.354 and 68.612 as follows, pursuant to paragraph 23 of the *Order on Reconsideration*:

**Section 68.354 Numbering and labeling requirements for terminal equipment**

\* \* \*

(d) Labeling developed for terminal equipment by the Administrative Council on Terminal Attachments shall contain sufficient information for providers of wireline telecommunications, the Federal Communications Commission, and the U.S. Customs Service to carry out their functions, and for consumers to easily identify the responsible party of their terminal equipment. The numbering and labeling scheme shall be nondiscriminatory, creating no competitive advantage for any entity or segment of the industry.

\* \* \*

**Section 68.612 Labels on terminal equipment**

Terminal equipment certified by a Telecommunications Certification Body or approved by the Supplier's Declaration of Conformity under this part shall be labeled. The Administrative Council for Terminal Attachments shall establish appropriate labeling of terminal equipment. Labeling shall meet the requirements of the Federal Communications Commission and the U.S. Customs Service for their respective enforcement purposes, and of consumers for purposes of identifying the responsible party and model number.

FEDERAL COMMUNICATIONS COMMISSION
